

Dear FCC,

Please do not allow cross ownership of TV stations and newspapers to take place. We need as many separate views as possible on any topic of importance. If you allow cross ownership we will have less viewpoints, not more. The only ones who will benefit from cross ownership will be the large corporations. We need views other than the views of large corporations. They already control too much of our news through their positions of power in America and the world.

For the good of all people, please do not allow cross ownership to take place
